**PETITION** - To the Legislative Assembly of Victoria

*The Petition of the Residents of the Electorate of Nepean, draws to the attention of the House:*

1. The need for urgent noise attenuation works along the Mornington Peninsula Freeway
2. Since the opening of Peninsula Link, traffic volumes have increased dramatically adding considerably to loss of amenity for residents living along the freeway route in the Nepean Electorate
3. Recent works in the Southbound lane near the Safety Beach Country Club neglected to utilise available sound deadening materials or technology, which has increased the noise levels being suffered by residents
4. We ask for the installation of either earthen berms, a sound deadening road surface, noise attenuating barriers, planting of sound deadening trees or a combination of all these solutions to reduce the noise to an acceptable level for all residents from Safety Beach to Rosebud.

Thank you for your response, and please post or drop off any completed petitions, or pick up more petitions from my office at the address below:

*Martin Dixon MP*
